EBE TECHNOLOGIES ANNOUNCES UPDATED CORPORATE WEBSITE LAUNCH

**New platform offers richer insight into the company's integrated
transportation solution offerings**

EAST MOLINE, IL - EBE Technologies, the leading provider of transportation-specific workflow and business process management applications, announced today the launch of its newly designed corporate Website at www.ebeships.com. The new Website features a streamlined, mobile-optimized design. Improved functionality, additional communication options and enriched content areas will assist visitors with understanding the breadth of solutions available and help determine which of those applications would make a positive impact within their organizations.

Beyond the newer design, the Website offers improved navigation and enhanced content focused on the company's transportation-specific mission of helping carriers improve operational efficiencies, enhance customer and driver satisfaction and improve profitability by delivering innovative business process management solutions. The site will be regularly updated with customer success stories and videos, product solution updates, company news, upcoming Webinar events, conference and tradeshow participation, blog posts and industry whitepapers.

Online chat functionality has also been added to the new Website. EBE professionals will be available to provide real-time answers to questions visitors may have about our solutions, our team or general inquiries. "We are excited to launch our new corporate Website to our customers, industry partners, media and other visitors who are looking to understand the breadth of EBE's products and services,"

said Cindy Nelson, Vice President of Marketing. “In addition to the re-organized content, throughout the site, visitors will find numerous opportunities to reach out and connect with us for more information. This Website redesign is truly another way we are committed to creating the best experience for our customers and Website visitors as possible.”

Visitors are encouraged to explore the new Website and request more information about EBE products and services on the new [Contact Us](#) page.

About EBE Technologies, Inc.

EBE is the leading provider of Transportation-Specific Content and Process Management Applications. Serving over 600 clients, EBE has made a positive impact throughout organizations in the areas of billing, settlements and accounts payable; recruiting, onboarding, safety & risk, and training; carrier management, fleet maintenance and mobile and data capture.
